DRUG AND ALCOHOL DEPENDENCE

SUBJECT INDEX

Volume 30 (1992)

Abuse liability, buprenorphine, naloxone, opioid, human, 263
Activity, ethanol, Evening Primrose Oil, Morris Maze, gamma linolenic acid, 65
Acupuncture, alcoholism, alcoholism treatment, 169
Acute physical dependence, opioids, morphine, naloxone, hormones, prolactin, cortisol, 13
Aging, alcohol, behaviour, sleep, withdrawal, rats, 111
AIDS, Antisocial Personality Disorder, HIV risk behavior, substance abuse, intravenous drug abuse, methadone maintenance treatment, treatment retention, 247
Alcohol, behaviour, sleep, withdrawal, aging, rats, 111
Alcohol, cigarettes, marijuana, schoolchildren, epidemiology, 275
Alcohol, nicotine, brain self-stimulation, locomotor activity, schedule-controlled behavior, fixed-ratio schedule, fixed-interval schedule, 37
Alcohol dependence, DSM-III-R, dependence symptoms, subtypes of dependence, validation of psychiatric diagnoses, 75
Alcohol withdrawal, dexamethasone suppression test, depression, liver function tests, 175
Alcohol withdrawal, leu-eukephalin, neurotransmitters, 209
Alcoholic myopathy, nutritional myopathy, protein deficiency, 101
Alcoholic women, community treatment, dependence, 33
Alcoholism, acupuncture, alcoholism treatment, 169
Alcoholism, cognitive deficits, learning potential, 199
Alcoholism, dependence, legal drugs, mortality, causes of death, long-term prognosis, 49
Alcoholism, diagnosis, primary health care, 163
Alcoholism treatment, alcoholism, acupuncture, 169
Antihistamine, self-administration, rhesus monkey, cocaine, 117
Antisocial Personality Disorder, AIDS, HIV risk behavior, substance abuse, intravenous drug abuse, methadone maintenance treatment, treatment retention, 247
Attitudes, drug use, injection, intravenous, HIV-AIDS, 71

Baboon, ethanol, hearing, vision, reaction time, 85
Behaviour, alcohol, sleep, withdrawal, aging, rats, 111
Benzodiazepine, drug discrimination, humans, triazolam, 133
Blood pressure, heroin addiction, detoxification, clonidine, 193
Brain self-stimulation, alcohol, nicotine, locomotor activity, schedule-controlled behavior, fixed-ratio schedule, fixed-interval schedule, 37
Buprenorphine, cocaine, interactions, 227
Buprenorphine, naloxone, opioid, abuse liability, human, 263

Cardiac effects, cocaine, heroin, marijuana, review, treatment, perinatal effects, 143
Causes of death, dependence, legal drugs, alcoholism, mortality, long-term prognosis, 49
Cigarettes, alcohol, marijuana, schoolchildren, epidemiology, 275
Clonidine, heroin addiction, detoxification, blood pressure, 193
Cocaine, antihistamine, self-administration, rhesus monkey, 117
Cocaine, buprenorphine, interactions, 227
Cocaine, cues, prediction, 187
Cocaine, heroin, marijuana, review, treatment, perinatal effects, cardiac effects, 143
Cocaine, ondansetron, self-administration, drug discrimination, dopamine, serotonin, $5HT_3$ receptor subtypes, 151
Cognitive deficits, alcoholism, learning potential, 199
Community treatment, alcoholic women, dependence, 33
Concurrent signalled differential-reinforcement-of-low-rates schedules, drug self-administration, pentobarbital, oral route, relative reinforcing effects, signalled differential-reinforcement-of-low-rates schedules, rhesus monkeys, 215
Cortisol, acute physical dependence, opioids, morphine, naloxone, hormones, prolactin, 13
Craving, determinants of drug abuse, determinants of relapse, research agenda, 127
Cues, cocaine, prediction, 187

Dependence, alcoholic women, community treatment, 33
Dependence, heroin, self-image, environment, 253
Dependence, legal drugs, alcoholism, mortality, causes of death, long-term prognosis, 49
Dependence symptoms, alcohol dependence, DSM-III-R, subtypes of dependence, validation of psychiatric diagnoses, 75
Depression, alcohol withdrawal, dexamethasone suppression test, liver function tests, 175

Determinants of drug abuse, craving, determinants of relapse, research agenda, 127
Determinants of relapse, craving, determinants of drug abuse, research agenda, 127
Detoxification, heroin addiction, clonidine, blood pressure, 193
Dexamethasone suppression test, alcohol withdrawal, depression, liver function tests, 175
Diagnosis, alcoholism, primary health care, 163
Dopamine, morphine dependence, norepinephrine, epinephrine, serotonin, genetic predisposition, 289
Dopamine, ondansetron, cocaine, self-administration, drug discrimination, serotonin, $5HT_3$ receptor subtypes, 151
Drug discrimination, benzodiazepine, humans, triazolam, 133
Drug discrimination, ondansetron, cocaine, self-administration, dopamine, serotonin, $5HT_3$ receptor subtypes, 151
Drug misuse, Kuwait, outpatient prescribing, toxicological screening, 235
Drug misusers, religion, personality, Eysenck, rehabilitation, 27
Drug monitoring, methadone maintenance treatment, withdrawal, 241
Drug self-administration, pentobarbital, oral route, relative reinforcing effects, concurrent signalled differential-reinforcement-of-low-rates schedules, signalled differential-reinforcement-of-low-rates schedules, rhesus monkeys, 215
Drug use, injection, attitudes, intravenous, HIV-AIDS, 71
Drug use, self-report validity, 1
DSM-III-R, alcohol dependence, dependence symptoms, subtypes of dependence, validation of psychiatric diagnoses, 75

Environment, heroin, dependence, self-image, 253
Epidemiology, alcohol, cigarettes, marijuana, schoolchildren, 275
Epinephrine, morphine dependence, norepinephrine, dopamine, serotonin, genetic predisposition, 289
Ethanol, Evening Primrose Oil, activity, Morris Maze, gamma linolenic acid, 65
Ethanol, hearing, vision, reaction time, baboon, 85
Ethanol, naltrexone, thymus, female rats, 181
Evening Primrose Oil, ethanol, activity, Morris Maze, gamma linolenic acid, 65
Eysenck, religion, personality, drug misusers, rehabilitation, 27

Female rats, ethanol, naltrexone, thymus, 181
Fixed-interval schedule, alcohol, nicotine, brain self-stimulation, locomotor activity, schedule-controlled behavior, fixed-ratio schedule, 37
Fixed-ratio schedule, alcohol, nicotine, brain self-stimulation, locomotor activity, schedule-controlled behavior, fixed-interval schedule, 37
Flumazenil, morphine-withdrawal, flunitrazepam, Ro 15-4513, Ro 16-6028, 293
Flunitrazepam, morphine-withdrawal, flumazenil, Ro 15-4513, Ro 16-6028, 293
Follicle-stimulating hormone, marihuana, luteinizing hormone, prolactin, 59

Gamma linolenic acid, ethanol, Evening Primrose Oil, activity, Morris Maze, 65
Genetic predisposition, morphine dependence, norepinephrine, epinephrine, dopamine, serotonin, 289

Hearing, ethanol, vision, reaction time, baboon, 85
Heroin, cocaine, marijuana, review, treatment, perinatal effects, cardiac effects, 143
Heroin, dependence, self-image, environment, 253
Heroin addiction, detoxification, clonidine, blood pressure, 193
HIV risk behavior, Antisocial Personality Disorder, AIDS, substance abuse, intravenous drug abuse, methadone maintenance treatment, treatment retention, 247
HIV-AIDS, drug use, injection, attitudes, intravenous, 71
Hormones, acute physical dependence, opioids, morphine, naloxone, prolactin, cortisol, 13
$5HT_3$ receptor subtypes, ondansetron, cocaine, self-administration, drug discrimination, dopamine, serotonin, 151
Human, buprenorphine, naloxone, opioid, abuse liability, 263
Humans, benzodiazepine, drug discrimination, triazolam, 133

Injection, drug use, attitudes, intravenous, HIV-AIDS, 71
Interactions, buprenorphine, cocaine, 227
Intravenous, drug use, injection, attitudes, HIV-AIDS, 71
Intravenous drug abuse, Antisocial Personality Disorder, AIDS, HIV risk behavior, substance abuse, methadone maintenance treatment, treatment retention, 247

Kuwait, drug misuse, outpatient prescribing, toxicological screening, 235

Learning potential, alcoholism, cognitive deficits, 199
Legal drugs, dependence, alcoholism, mortality, causes of death, long-term prognosis, 49
Leu-eukephalin, alcohol withdrawal, neurotransmitters, 209
Liver function tests, alcohol withdrawal, dexamethasone suppression test, depression, 175
locomotor activity, alcohol, nicotine, brain self-stimulation, schedule-controlled behavior, fixed-ratio schedule, fixed-interval schedule, 37
Long-term prognosis, dependence, legal drugs, alcoholism, mortality, causes of death, 49
Luteinizing hormone, marihuana, follicle-stimulating hormone, prolactin, 59

Marihuana, luteinizing hormone, follicle-stimulating hormone, prolactin, 59
Marijuana, alcohol, cigarettes, schoolchildren, epidemiology, 275

Marijuana, cocaine, heroin, review, treatment, perinatal effects, cardiac effects, 143
Methadone maintenance treatment, Antisocial Personality Disorder, AIDS, HIV risk behavior, substance abuse, intravenous drug abuse, treatment retention, 247
Methadone maintenance treatment, drug monitoring, withdrawal, 241
Morphine, acute physical dependence, opioids, naloxone, hormones, prolactin, cortisol, 13
Morphine dependence, norepinephrine, epinephrine, dopamine, serotonin, genetic predisposition, 289
Morphine-withdrawal, flunitrazepam, flumazenil, Ro 15-4513, Ro 16-6028, 293
Morris Maze, ethanol, Evening Primrose Oil, activity, gamma linolenic acid, 65
Mortality, dependence, legal drugs, alcoholism, causes of death, long-term prognosis, 49

Naloxone, acute physical dependence, opioids, morphine, hormones, prolactin, cortisol, 13
Naloxone, buprenorphine, opioid, abuse liability, human, 263
Naltrexone, ethanol, thymus, female rats, 181
Neurotransmitters, alcohol withdrawal, leu-eukephalin, 209
Nicotine, alcohol, brain self-stimulation, locomotor activity, schedule-controlled behavior, fixed-ratio schedule, fixed-interval schedule, 37
Norepinephrine, morphine dependence, epinephrine, dopamine, serotonin, genetic predisposition, 289
Nutritional myopathy, alcoholic myopathy, protein deficiency, 101

Ondansetron, cocaine, self-administration, drug discrimination, dopamine, serotonin, $5HT_3$ receptor subtypes, 151
Opioid, buprenorphine, naloxone, abuse liability, human, 263
Opioids, acute physical dependence, morphine, naloxone, hormones, prolactin, cortisol, 13
Oral route, drug self-administration, pentobarbital, relative reinforcing effects, concurrent signalled differential-reinforcement-of-low-rates schedules, signalled differential-reinforcement-of-low-rates schedules, rhesus monkeys, 215
Outpatient prescribing, drug misuse, Kuwait, toxicological screening, 235

Pentobarbital, drug self-administration, oral route, relative reinforcing effects, concurrent signalled differential-reinforcement-of-low-rates schedules, signalled differential-reinforcement-of-low-rates schedules, rhesus monkeys, 215
Perinatal effects, cocaine, heroin, marijuana, review, treatment, cardiac effects, 143
Personality, religion, Eysenck, drug misusers, rehabilitation, 27
Prediction, cocaine, cues, 187
Primary health care, alcoholism, diagnosis, 163
Prolactin, acute physical dependence, opioids, morphine, naloxone, hormones, cortisol, 13
Prolactin, marihuana, luteinizing hormone, follicle-stimulating hormone, 59
Protein deficiency, alcoholic myopathy, nutritional myopathy, 101

Rats, alcohol, behaviour, sleep, withdrawal, aging, 111
Reaction time, ethanol, hearing, vision, baboon, 85
Rehabilitation, religion, personality, Eysenck, drug misusers, 27
Relative reinforcing effects, drug self-administration, pentobarbital, oral route, concurrent signalled differential-reinforcement-of-low-rates schedules, signalled differential-reinforcement-of-low-rates schedules, rhesus monkeys, 215
Religion, personality, Eysenck, drug misusers, rehabilitation, 27
Research agenda, craving, determinants of drug abuse, determinants of relapse, 127
Review, cocaine, heroin, marijuana, treatment, perinatal effects, cardiac effects, 143
Rhesus monkey, antihistamine, self-administration, cocaine, 117
Rhesus monkeys, drug self-administration, pentobarbital, oral route, relative reinforcing effects, concurrent signalled differential-reinforcement-of-low-rates schedules, signalled differential-reinforcement-of-low-rates schedules, 215
Ro 15-4513, morphine-withdrawal, flunitrazepam, flumazenil, Ro 16-6028, 293
Ro 16-6028, morphine-withdrawal, flunitrazepam, flumazenil, Ro 15-4513, 293

Schedule-controlled behavior, alcohol, nicotine, brain self-stimulation, locomotor activity, fixed-ratio schedule, fixed-interval schedule, 37
Schoolchildren, alcohol, cigarettes, marijuana, epidemiology, 275
Self-administration, antihistamine, rhesus monkey, cocaine, 117
Self-administration, ondansetron, cocaine, drug discrimination, dopamine, serotonin, $5HT_3$ receptor subtypes, 151
Self-image, heroin, dependence, environment, 253
Self-report validity, drug use, 1
Serotonin, morphine dependence, norepinephrine, epinephrine, dopamine, genetic predisposition, 289
Serotonin, ondansetron, cocaine, self-administration, drug discrimination, dopamine, $5HT_3$ receptor subtypes, 151
Signalled differential-reinforcement-of-low-rates schedules, drug self-administration, pentobarbital, oral route, relative reinforcing effects, concurrent signalled differential-reinforcement-of-low-rates schedules, rhesus monkeys, 215
Sleep, alcohol, behaviour, withdrawal, aging, rats, 111
Substance abuse, Antisocial Personality Disorder, AIDS, HIV risk behavior, intravenous drug abuse, methadone maintenance treatment, treatment retention, 247

Subtypes of dependence, alcohol dependence, DSM-III-R, dependence symptoms, validation of psychiatric diagnoses, 75

Thymus, ethanol, naltrexone, female rats, 181
Toxicological screening, drug misuse, Kuwait, outpatient prescribing, 235
Treatment, cocaine, heroin, marijuana, review, perinatal effects, cardiac effects, 143
Treatment retention, Antisocial Personality Disorder, AIDS, HIV risk behavior, substance abuse, intravenous drug abuse, methadone maintenance treatment, 247
Triazolam, benzodiazepine, drug discrimination, humans, 133

Validation of psychiatric diagnoses, alcohol dependence, DSM-III-R, dependence symptoms, subtypes of dependence, 75
Vision, ethanol, hearing, reaction time, baboon, 85

Withdrawal, alcohol, behaviour, sleep, aging, rats, 111
Withdrawal, methadone maintenance treatment, drug monitoring, 241

Drug and Alcohol Dependence, 30 (1992) 305–306
